Survival Analysis for Junior Researchers (SAfJR) conference

por webadmin - jueves, diciembre 22, 2022

http://www.biometricsociety.net/2022/12/22/survival-analysis-for-junior-researchers-safjr-conference/

The ninth annual **Survival Analysis for Junior Researchers (SAfJR) conference** is hosted by Ulm University, Germany, **on 13-15 September 2023**. It is a three-day event at castle Reisensburg that is aimed at career-young statisticians with an interest in the application and development of time-to-event analysis and related topics. The conference provides a unique opportunity for participants to present and discuss their work with peers at a similar stage in their careers in a relaxed and friendly environment.

The event includes a tutorial on transformation models by Torsten Hothorn (University of Zurich, Switzerland), a keynote talk of Torben Martinussen (University of Copenhagen) about «Subtleties in the interpretation of hazard ratios» and a keynote talk about survival analysis in the pharmaceutical industry of Caroline Foch (Merck KGaA), as well as poster sessions and a conference dinner!

We kindly ask you to forward the announcement on the upcoming Survival Analysis for Junior Researchers conference 2023 via the IBS- Spanish Region mailinglist.

Please visit the conference website (www.uni-ulm.de/safjr2023) for further details on the conference. Please also find attached the flyer for the conference.
