CLINICAL TRIALS BIOSTATISTICIAN/EPIDEMIOLOGIST

Medical University of South Carolina

The Department of Biometry and Epidemiology at the Medical University of South Carolina (MUSC) has faculty positions available immediately for biostatisticians and/or epidemiologists with interest and experience with clinical trials. Rank commensurate with qualifications and experience.

Candidates should have a strong background in initiation of, and participation with, multicenter clinical trials, having assumed leadership roles with design and evaluation components. Track record in grant and contract funded research required. Candidates should have a strong commitment to methodological research relevant to trials. Opportunities exist for collaborative research with MUSC's clinical trials coordinating center, The Clinical Innovation Group.

Teaching experience is preferred, but not required. Candidates may be required to teach graduate level courses in research methodology and clinical trials.

Interested applicants should send a curriculum vita, and three references to: **Patrick D. Mauldin, Ph.D., Executive Director, The Clinical Innovation Group MUSC Foundation for Research Development, 261 Calhoun Street, Suite 304, P.O. Box 250188, Charleston, SC 29425.**

The Medical University of South Carolina is an equal opportunity affirmative action employer.
