IAP-StuDyS Workshop 4:

Joint Modeling and Beyond –
Meeting and Tutorial on Joint Modeling With Survival, Longitudinal, and Missing Data

Thursday 14th and Friday 15th April 2016
Hasselt University, Campus Diepenbeek, BELGIUM

Programme outline:

Day 1 - Thursday 14th April 2016	
09:40 - 11:10	Tutorial I: Motivation for Joint Modeling & Joint Models for Longitudinal and Survival Data
11:40 - 12:40	Invited talk I & II on Joint Models for Longitudinal and Survival Data
12:40 - 14:00	Poster presentations & lunch
14:00 - 15:30	Tutorial II: Joint Models for the Longitudinal and Dropout Processes
16:00 - 17:00	Invited talk on Joint Models for Incomplete Data
Day 2 - Friday 15th April 2016	
09:00 - 10:30	Tutorial III: Joint Models for Multivariate Longitudinal Data
11:00 - 12:00	Invited talk on Joint Models for Multivariate Longitudinal Data
12:00 - 13:30	Poster presentations & lunch
13:30 - 15:00	Tutorial IV: Dynamic Predictions from Joint Models
15:30 - 16:30	Invited talk on Dynamic Predictions using Joint Models

Speakers:

Dimitris Rizopoulos, Carmen Armero, Montse Rue, Geert Molenberghs, James Carpenter,

Geert Verbeke, Cécile Proust-Lima, & Michael Sweeting
